

18 December, 2019

Dear Mr. Ralph Yirkian,

I am writing to once again express my deepest gratitude for the generous investment of VivaCell-MTS. This year, 46 families in need of decent housing benefited from that support. And it's my pleasure to share with you this report with before and after photos of all families supported.

Altogether, in 8 years, the lives of 208 families of different communities of all regions of Armenia changed irrevocably.

Substandard housing is one of the primary reasons that makes families move abroad. Almost none of the families we have supported during these years has left Armenia and this is a proof that the partnership has a positive influence on decreasing emigration in Armenia.

We believe that strong families are the building blocks of strong communities and of a strong nation. Since 2008 the Fuller Center for Housing Armenia (FCHA) has supported 822 families to build or renovate their homes. And this success was also possible owing to the generous support of VivaCell-MTS.

Once again accept our deepest gratitude and appreciation,

Regards, Ashot Yeghiazaryan

Son	Serob Manukyan	25 years old
Daughter	Anahit Manukyan	24 years old
Daughter	Mariam Manukyan	19 years old
Son	Gevorg Manukyan	12 years old

The Manukyan family lives in Nerkin Bazmaberd village of Aragatsotn region. The family consists of six members. Mihran lives with his wife and their four children.

The roof of the house is damaged and needs renovation but due to financial difficulties the family could not afford to renovate it. The income of the family was barely enough to meet everyday household issues and care family's needs. Mihran is a pensioner. The family is also engaged in cattle-breeding and farming.

"The roof of the house needed renovation but unfortunately, we couldn't afford to start the works because of lack of financial means. With your help we have renovated the roof, and we are really grateful," said Mihran.

Aragatsotn Region, Parpi Village Lnyazyan Lamily Project Type-Half-Built

Sergo Knyazyan 50 years old Wife Karmleh Stepanyan 44 years old Son Sargis Knyazyan 22 years old

The Knyazyan family of three lives in Parpi village of Aragatsotn region. After marriage, Sergo with his wife had to move into a metal container. They couldn't live in Sergo's parents' house as Sergo's brothers with their families lived there and there wasn't enough space for everyone.

Sergo and his family lived in the metal container for almost 20 years. The metal container was in a miserable condition. There were no basic facilities for living: no kitchen, no bathroom. After moving into the container, Sergo started building a new house but couldn't afford to finish it. He was able to build only the walls of the house.

The income of the family is Sergo's and Sargis' salaries. Sergo's wife, Karmleh is a pensioner.

"Both my son and I work hard to solve our housing problems. But we were only able to take care of the daily needs of the family. We lived there lacking basic conditions. Thank you for the support, which was really vital for us" said Sergo.

Mother	Gyulper Sukiasyan	64 years old
Wife	Alvard Mkhitaryan	36 years old
Son	Gurgen Sukiasyan	12 years old
Son	Babken Sukiasyan	11 years old
Daughter	Ani Sukiasyan	9 years old

The Sukiasyan family from Gyulagarak village, Lori region, has been living in a damp and cold basement for years. Their wish to live a decent life was left unfulfilled when the 1988 earthquake stroke. It became nearly impossible to build a home even after many years following the disaster. For three decades, the Sukiasyans' son, Arman, together with his parents and sisters, and later with his wife and children, went through many hardships. He has tried to take steps, but with the lack of financial means, he could not do that; the walls of the semi-constructed building were left under the old and deteriorating roof. The weather in the region is damp and rainy and damaged whatever remained in the house. Living in it was dangerous with the walls completely moldy.

"I wouldn't handle this if I tried alone. Thanks to the support, we replaced the roof in 4 days. I am glad my children are under a safe roof. Now I may feel that we live a decent life," said Arman.

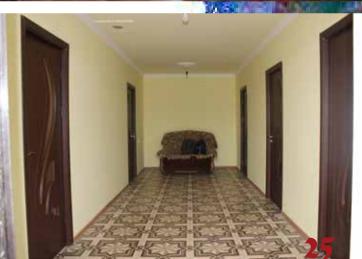

Lori Region, Spitak Town Sahakyan Lamily Voject Type-Balf-Ruilt

Seryozha Sahakyan 34 years old
Mother Marine Meloyan 57 years old
Wife Lyuba Gevorgyan 29 years old
Son Mkrtich Sahakyan 2 years old
Daughter Marina Sahakyan 1-year-old

Sahakyan family of five lives in Spitak city of Lori region. Seryozha with his parents and a brother lived in his parents house before the disastrous earthquake happened. During the earthquake the house was destroyed and Seryozha's father and brother died. Marine stayed with her son alone with many difficulties. They had to move to a temporary shelter.

Seryozha married and now lives with his wife, mother and two children. During years, Seryozha tried to rebuild his parents' house but couldn't afford it.

"It is so hard to raise two small children in a temporary shelter where there are no basic conditions. My husband works hard but it is difficult to keep a family and build a house at the same time. We needed your support to finish our house construction, as we were not able to do on our own. You gave my children an opportunity to live a decent life. Thank you," said Lyuba.

Lori Region, Stepanavan Town Manukyan Family Project Type-Purchase

Armine Manukyan 45 years old
Son Arman Jaghinyan 20 years old
Daughter Hranush Jaghinyan 16 years old
Son Garik Jaghinyan 12 years old
Daughter Arevik Jaghinyan 10 years old

The Jaghinyan family of 5 lives in Stepanavan town of Lori region. Armine lives with her sons and daughters. Her husband passed away. The family lived in an old house that was almost 60 years old and was in danger of demolition. Before that, they lived in Armine's father-in-law's house but they had to sell the house due to lack of financial means. The house lacked basic housing conditions.

The income of the family is the pension that Armine receives for her children due to single parenting. Armine's elder son, Arman is a contract serviceman. The family also receives a benefit due to their social insecurity.

In 2019, thanks to the partnership between VivaCell-MTS and the Fuller Center for Housing Armenia, the Jaghinyan family purchased a new house and will live in a safe and comfortable home.

"In our old house, we didn't feel at home, we didn't feel safe. The house was damp and semi-demolished. It could collapse any time. We are happy to get rid of those conditions. Now, with your support, we have purchased a new home with all the facilities. Thank you," said Armine.
